Frontend Developer (Entry-Level)

I'm a self-taught frontend developer in progress, currently building projects using HTML, CSS, and JavaScript. Before transitioning into tech, I worked as a program associate and content creator in the development and training sector. I now apply those analytical and research skills to build clean, responsive, and user-friendly interfaces with strong attention to detail.

TECHNICAL SKILLS

Languages & Certifications: [JavaScript (ES6+)](#), [HTML5](#), [CSS3](#)
Tools: Git & [GitHub](#), VS Code, Chrome DevTools
Web Development: Responsive UI, DOM Manipulation, API usage, Web Design
Other: SEO content writing, presentation design, Canva designs, project coordination, digital strategy.

PROJECT EXAMPLES

- [Responsive Portfolio Website](#) – HTML, CSS, JavaScript
  Built a fully responsive portfolio with dark/light mode, animations, project cards, and mobile-friendly navigation.
- [Weather App](#) – HTML, CSS, JavaScript, API
  Fetches real-time weather data using a public API and displays it in a clean UI.
- [To-Do List App](#) – HTML, CSS, JavaScript
  Implemented add/delete functionality, local storage persistence, and dynamic DOM updates.
- [Quiz-App](#) – HTML, CSS, JavaScript
  Built a clean and interactive quiz app featuring multiple-choice questions, instant feedback, and score tracking.

PROFESSIONAL EXPERIENCE

- [Philantropia Inc](#)
  Research Associate / Mar 2022 – Jan 2024
- [StartupXs](#)
  Project Manager and Content Writer | Mar 2022 – Jan 2024

- [ThinkAloud](#)
  Program Associate | Mar 2022 – Jan 2024
- [Ask Me About Nepal](#)
  Freelance Writer
